

# Marx: Later Political Writings (Cambridge Texts in the History of Political Thought)

Marx: Later Political Writings brings together the most important texts in political philosophy written by Marx after 1848. All are in new translations, and the collection is introduced by the leading Marx scholar Terrell Carver. Unlike other collections, the works are presented complete, according to their earliest edition or manuscript text, and include the Manifesto of the Communist Party, and the little-known Notes on Adolph Wagner. These texts allow the close contact between Marx and contemporary politics to emerge in a clearer light.
