

## Selected Plays, Volume I

August Strindberg is often considered the father of modern Swedish literature. His vast output of plays was innovative in style and form. Volume 1 of Selected Plays presents selections from the beginning of his career, before Strindbergs period of psychotic attacks in the 1890s. Master Olof (1872) is a historical drama set in early Reformation Sweden, influenced by Ibsen and Shakespeare. Two of his most produced plays today, The Father (1887) and Miss Julie (1888), are examples of his naturalistic plays. Strindberg described Creditors (1888), a tragicomedy, as his most mature work. The Stronger (1889), a playlet, is a favorite in acting classes. Playing with Fire (1893) is one of his few comedies. These plays deal with Strindbergs preoccupation with power struggles and sexual warfare.
