

Timekeepers: Civil Disturbance

Guns and ghosts and assassins-- oh my! Kristen and Brad are visiting their cousin Sally in a small city in New York. Its just a family vacation; what could possibly go wrong?? Apparently, a lot. Kristen is visiting a museum for school research and suddenly discovers shes been thrown back in time.... AGAIN. Luckily shes not alone; a cute museum volunteer made the strange trip to 1865 with her. Together they do what needs to be done, and steel themselves to deal with a tragic national event. Across town Brad and Sally are also on an educational mission. However, a bonehead move by Brad triggers a cosmic timeshift for these cousins, as well. Abruptly thrust into 1865, they find themselves taking part in an important--and potentially deadly--mission on behalf of a revered American leader. The two sets of teens rush to put history on the right track, as the life and liberty of others depends on them. And can they each manage to get back to their own time? ~ ~ ~ ~ This is the second Timekeepers book, which features Brad and Kristen Everheart. Target audience is ages 12-up. The book is approximately 51,600 words.
