

Japan (Classic Reprint)

March, 1905, of David Murray, the author of this volume, prevented him from carrying out his intention of bringing the narrative down to include the important events of the last fifteen years in the history of Japan. The chapters presenting the record of these fifteen years, including an account of the more important and epoch-making of the events in the Russo-Japanese War of 1904-05, have been prepared by Albert White Vorse. The Baron Kentaro Kaneko, LL.D., who has himself been charged with important responsibilities by the Imperial Government of his country, has most generously contributed two very interesting and important chapters to this new edition, this contribution being made in recognition of the valuable work done by David Murray. (Typographical errors above are due to OCR software and do not occur in the book.)
