

Mediterranean Diet: 44 Healthy Mediterranean Recipes: Decrease Your Risk for Heart Disease, Depression, & Dementia

The Mediterranean diet is famous all over the world for having a huge range of dishes, all absolutely delicious. Based on simple yet nutritious ingredients, it is a very balanced diet which does not use many trans and saturated fats, unlike the food lots people eat in many other Western countries. Rich in healthy proteins, omega 3, vitamins and minerals, the Mediterranean diet has long been known to be one of the main reasons why people from countries around this wonderful sea have a much longer life expectancy than most other people around the world. Studies have repeatedly demonstrated that the Mediterranean diet is excellent to reduce chances of heart disease, diabetes, Alzheimers, Parkinsons, other forms of dementia and even depression. If you think that cooking a delicious Mediterranean meal must be difficult you are mistaken; in fact, most dishes are actually very easy to prepare; the recipes in this book will show you how to cook some of the best food in the world easily and fast. All the recipes in this book are good for your health, and they are all absolutely mouth watering, including the desserts. In this book you will find: Healthy recipes from many Mediterranean countries, from Italy to France, Greece, North Africa and more . . . Healthy Mediterranean breakfast recipes Healthy Mediterranean lunch recipes, many of which you can prepare in a few minutes and many which you can pre-cook and put in your lunch box ready to go to work Healthy and delicious Mediterranean recipes for your dinner Healthy and mouth watering Mediterranean desserts Healthy Mediterranean recipes for meat dishes, fish dishes and for cooking vegetables Clear and detailed information of how to reduce chances if heart disease, dementia and depression using a balanced Mediterranean diet .
