

Americas March to Socialism: Why were one step closer to giant missile parades [Audiobook] [Audio CD]

Glenn Beck is at it again! He hears the sounds of marching cadres driving America closer each day to socialism. Only Glenn Beck can connect seemingly unrelated and disparate threads, demonstrating they are the warp and woof of a red fabric that is, day-by-day, enveloping our federal, state and local governments and leading us down the socialist path to the point of no return. Absolutely essential for those who have heeded his call to action!
