

Anjums Vegetarian Feast

We should all be eating more vegetables, and Anjums plethora of scintillating flavours and healthy recipes means even the most carnivorous among us will be happy to give meat a miss. As much of the subcontinent is vegetarian by religion, Indian food provides the ideal cuisine in which to discover some seriously tasty new approaches to vegetables, grains, cheeses and pulses. Anjum adapts the true flavours of India, with her trademark concern for healthy eating and a good diet, to make meals that are healthy, light, bright, modern and balanced, providing all the protein and other nutrients we all need for perfect health. This book teaches us all how to eat vegetarian recipes for life. Sandwiches, grills, salads, snacks and appetizers, and of course main dishes and curry recipes with their accompaniments, are all included. Breakfasts, brunches and barbecues supply unexpected treats, such as mile-high chickpea pancakes with Indian purple coleslaw and Delhi-style chargrilled sweetcorn with a spicy lime rub. Many of Anjum Anands recipes are family favourites or based on the vibrant street food culture of India, adapted to bring them bang up to date.
