(World health organization - WHO) Superfluous food and the ease with which we can attain all the things we need has made physical activity almost extinct. It's safe to say that obesity is the gift of modern era; a gift that can potentially be deadly. For instance, according to the same report almost 2.8 million adults die each year of obesity! If you're suffering from this disease of modern era, this last point should give ample reason for you to try get rid of obesity. This book discusses how dangerous obesity can be and gives you a complete plan regarding how you can get rid of this curse of the modern era. Is obesity as evil as it sounds? Yes, it is. Not only it makes you look unfit but also makes you susceptible to a number of health hazards like high blood pressure, metabolic disorders, diabetes, stroke, joint complications, cancer and heart attack. It's ironic that how the hearts and souls of people tremble when they hear of diseases like cancer, heart attack and stroke. Obesity; who cares about it? I love food, I live for eating, and eating is my life. People

try to hide this foe behind these statements. Why wait for a heart attack or a stroke? Why not try to nip the evil in its bud? I feel no hesitation in saying that obesity is the mother of hundreds of other diseases. Its not a disease in itself but is the risk factor of several other maladies. By now you would be wondering; if obesity is so dangerous then it should take a magical pill to get rid of it. That magical pill is in your hands. A healthy lifestyle is the only way to get rid of this condition. Who needs a doctor when you can cure a condition all by yourself? The major portion of this book focuses on describing the dietary habits, different exercise, herbal alternatives and home remedies to burn extra fat. But sometimes, things do get serious and you need a doctor. The last few pages describe the medicinal and surgical remedies of obesity.
