

What Went Wrong in Ohio: The Conyers Report on the 2004 Presidential Election

This fascinating and disturbing book is the official record of testimony taken by the Democratic Members and Staff of the House Judiciary Committee, presided over by Rep. John Conyers of Michigan, the Ranking Member. Originally released in January, 2005 by the Committee and now available in print for the first time. Witnesses included both Republicans and Democrats, elected officials, voting machine company employees, poll observers, and many voters who testified about the harassment they endured, some of which led to actual vote repression. While shreds of the electoral chaos in Ohio were reported in the press, the issue soon faded from public view. What Went Wrong In Ohio provides new insights into the abuse and manipulation of electronic voting machines and the arbitrary and illegal behavior of a number of elected and election officials which effectively disenfranchised tens of thousands of voters in order to change the outcome of an election.
