

Complete Sherlock Holmes Short Stories

This new five-volume set contains all 56 Sherlock Holmes short stories, written between 1887 and 1927. Cases from the mundane - the more featureless a crime is, the more difficult it is to bring it home - to the eccentric - I think I mentioned to you that the doctor kept a cheetah and a baboon - are peppered with villains of every persuasion. Holmes' inimitable foil and the narrator of the stories is Watson, rather pedestrian of thought but prone to flashes of inspiration, and more valuable than he realises. Some people without possessing genius have a remarkable power of stimulating it. Solving even the most impenetrable of puzzles is, for Holmes, Elementary, my dear Watson (though he never used these exact words himself). Only Professor Moriarty - that Napoleon of crime, that great malignant brain - can rival Holmes in any real sense. Five volumes. Introduced by the late Peter Cushing, one of the best-known of many screen Holmeses. Bound in cloth and blocked with a design by David Eccles. 1,456 pages with 41 line drawings by Francis Mosley. 8? x 5?.
