

# Conservation Research in Libraries (Current Topics in Library and Information Practice)

Conservation research in libraries is a rapidly growing field. This book places analysis within its context in conservation and provides examples of how this expensive resource can be used. Through a series of case studies, it describes major analytical procedures, including visualization, molecular, elemental and separation techniques as well as chemical tests. It is thus a suitable reference work for library conservators and curators.

[\[PDF\] Flagellation of the Whigs. A poem. In imitation of the first satyr of Juvenal. By John Dryden, Jun. Esq.](#)
