

Death of an Old Master (Lord Francis Powerscourt Series)

In May 1901 the Salisbury Galleries announce the biggest exhibition of the Old Master Paintings ever seen in Europe. Excitement is intense. But before it opens, one of Britains leading art experts, Christopher Montague, is found murdered in his study. When Lord Francis Powerscourt is called in to investigate he finds every book, notepad and scrap of paper has been removed from the scene of the crime. Montague had been working on something that would have rocked the art world. Did his article that claimed a number of the Old Masters had been painted recently by a single hand have anything to do with his death? Powerscourt embarks on an odyssey through a treacherous world of art dealers and picture restorers in pursuit of a master forger. He travels to Sicily where the trail goes cold, but, after the thrills and danger of that wild, lawless island, in a remote corner of England, the truth is finally revealed.
