

Type I Juvenile Diabetes: Facts, Fiction, Coincidence or Miracle?

One family shares an emotional journey when their only child is diagnosed with Type I Juvenile Diabetes at age eleven. They are determined to find a way of life that does not involve multiple daily shots of insulin. This book explains the normal medical advice, but then provides alternatives and hope for those still impacted by diabetes. This is not a cure, rather a life changing look at viable options to avoid or reduce insulin injections. Is their story fact, fiction, coincidence or a miracle? This is a truly heartfelt and informative look at diabetes. It is a must-have for any family who has a loved one with diabetes.
