

## Western Civilization: Volume II: Since 1500 (with InfoTrac)

This is Volume II (chapters 13-29) of the best-selling Western civilization text that has helped hundreds of thousands of students learn about the present by exploring the past. Jack Spielvogel's engaging, chronological narrative weaves the political, economic, social, religious, intellectual, cultural, and military aspects of history into a gripping story that is as memorable as it is instructive. Each chapter offers a substantial introduction and conclusion that sparks students' imaginations by giving them a context within which to understand these disparate themes. And while the single-author narrative makes it easy for students to follow the story of Western civilization, Spielvogel has included dozens of maps and primary sources—including official documents, poems, and songs—that enliven the past while introducing students to the challenges involved in interpreting history.
