

What Went Wrong with America... and How to Fix It: Reclaiming the Power That Rightfully Belongs to You

In *What Went Wrong with America... And How to Fix It*, radio host Darrell Ankarlo identifies the key elements of how our society is rotting from within, mostly due to an uninformed and uninvolved citizenry. Providing inspiration from the Founding Fathers and modern American movements, he shows how he has used the platform of his radio show to inform his listeners and encourage them to get involved in their communities. In order to encourage citizens to use the power they already have, he provides a practical road map for ordinary Americans to follow in making their voices heard. He equips readers to change the pattern of disengagement by utilizing broadcast and print media to spread their messages, organize rallies and protests, to engage in effective letter-writing and e-mail campaigns to rally support for their ideas, even to the point of running for elected office if necessary. Find out how one talk-radio host who loves his country and its troops organized a massive demonstration of support for the American military and sparked a nationwide movement of pro-American, pro-troop rallies. These achievements were accomplished by average Americans who took the time to make a difference. *What Went Wrong with America ... And How to Fix It* provides the tools necessary for anyone who cares about the future of the nation and wants to make a big difference on the local, state, and national level.
