

Frankenstein and the Vampire Countess (the Empire of the Necromancers 2)

1821. Thanks to the technique discovered by Victor Frankenstein, it is now possible to resurrect the dead. Scotland Yard Superintendent Gregory Temple, on the trail of criminal mastermind John Devil, who plans to use such technology to reshape the world, is now forced to team up with Paris Morgue supervisor Jean-Pierre Severin, Malo de Treguern and Frankenstein's own creation to confront a cabal of vampires led by Count Szandor and the inhumanly beautiful Countess Marcian Gregoryi who also seek Frankenstein's secret... Frankenstein and The Vampire Countess is the second volume in a prodigious Alternate History saga which embraces the works of Mary Shelley, Paul Feval, Alexandre Dumas and others, written by Brian M. Stableford, an acknowledged master of the genre, author of the critically acclaimed *The Plurality of Worlds*.
