

Psyches Task a Discourse Concerning, the Influence of Superstition on the Growth of Institutions: Second Edition, Revised and Enlarged, to Which Is ... Anthropology, an Lecture (Classic Reprint)

Good and evil we know in the field of this world grow up together almost inseparably; and the knowledge of good is so involved and interwoven with the knowledge of evil and in so many cunning resemblances hardly to be discerned, that those confused seeds, which were imposed on Psyche as an incessant labour to cull out and sort asunder, were not more intermixt. MILTON, Areopagitica. Il ne faut pas croire cependant qu'un mauvais principe vicie radicalement une institution, ni meme qu'il fasse tout le mal qu'il porte dans son sein. Rien ne fausse plus l'histoire que la logique: quand l'esprit humain s'est arrete sur une idee, il en tire toutes les consequences possibles, lui fait produire tout ce qu'en effet elle pourrait produire, et puis se la represente dans l'histoire avec tout ce cortège. Il n'en arrive point ainsi; les evenements ne sont pas aussi prompts dans leur deductions que l'esprit humain. Il y a dans toutes choses un melange de bien et de mal si profond, si invincible que, quelque part que vous penetriez, quand vous descendrez dans les derniers elements de la societe ou de l'ame, vous y trouverez ces deux ordres de faits coexistant, se developpant lun a cote de l'autre et se combattant, mais sans s'exterminer. La nature humaine ne va jamais jusqu'aux dernieres limites, ni du mal ni du bien; elle passe sans cesse de lun a l'autre, se redressant au moment ou elle semble le plus pres de la chute, faiblissant au moment ou elle semble marcher le plus droit.
