

God the Bible: A Review of Objections to Literature and Dogma (Classic Reprint)

Excerpt from God the Bible: A Review of Objections to Literature and Dogma The present volume is a sequel to the popular edition of Literature and Dogma published last year. It is meant to reproduce, in a somewhat condensed and much cheaper form, a work, God and the Bible, which the objections to Literature and Dogma called forth, Literature and Dogma had altogether for its object, and so too has the present work, - a work which clears, develops and defends the positions taken in Literature and Dogma, - to show the truth and necessity of Christianity, and also its charm for the heart, mind, and imagination of man, even though the preternatural, which is now its popular sanction, should have to be given up. To show this, is the end for which both books were written. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
