

Hitler Youth: The Hitlerjugend in War and Peace 1933-1945

Whoever has the youth has the future. My teaching will be hard. Weakness will be knocked out of them. A violently active, dominating, brutal youth that is what I am after. Adolf Hitler Between 1933 and 1945, the majority of Germanys children were members of the Hitler Youth, the junior branch of the Nazi Party. Examining the development, organization, education and indoctrination of the Hitler Youth, this book also looks at how people resisted it and looks at other Nazi youth groups, such as the Jungvolk and Bund Deutscher Madel. From weekend camps and arts and crafts, to weapons training and the SS Hitlerjugend Divisions fanatical efforts during the closing stages of World War II, to life for Hitler Youth members after the edifice of Nazi Germany had collapsed, Hitler Youth is an expert, accessible book about the indoctrination of a generation.
