

## Am Gov 2009

For your classes in American Government, McGraw-Hill introduces the latest in its acclaimed M Series. The M Series started with your students. McGraw-Hill conducted in-depth, ethnographic research with students from a variety of backgrounds and institutions to gain insight into their studying and buying behavior. Students told us they wanted more portable texts with innovative visual appeal and content that is designed according to the way they learn. We also surveyed instructors, and they told us they wanted a way to engage their students without compromising on high-quality content. AM GOV, published annually, is the first student-centered American government text. Designed to be used by instructors who traditionally use either a big, brief, or essentials text, it offers scholarly, succinct, and conventionally organized core content; unmatched currency; and a magazine format that engages students. All this, and at a price that students love. More current, more portable, more captivating, with a rigorous and innovative research foundation, AmGov adds up to more learning. When you meet students where they are, you can take them where you want them to be.
