

## In Search of Wonder

A classic must-have for all readers and writers of science fiction! Damon Knight effectively invented science fiction criticism. His reviews were not mere statements of his personal preferences; his skillful essays analyzed the books and told why they were good or bad, to the edification of readers, the delight of good writers, and the embarrassment of bad ones. In this unique critical study of science fiction, Mr. Knight works on the principle that science fiction is a form of literature which needs no apologies and no special dispensations: it can and should be judged by the same high standards that apply to all literature. His incisive and knowing criticism covers the field brilliantly, from Classics to Chuckleheads. Readers will delight in his laser-sharp thoughts on favorite books, and writers will find his critiques of the classics invaluable in improving their own craft. This expanded Third Edition is 150,000 words, up from 120,000 in the 1967 Second Edition, and double the length of the 1956 First Edition. This new edition adds a chapter of autobiography, articles on writing and teaching science fiction, and other fascinating essays. Even if you already have the first or second editions, you should consider getting this edition simply for the new material, which includes: Chapter 1: Myself When Young [autobiographical]; Chap. 13: The Excluded Data [about Charles Fort]; Chap. 29: Milford and Clarion; Chap. 30: Science and the World; Chap. 31: What Is Science Fiction, Anyway?; Chap. 32: Writing Science Fiction; a major expansion of Chapter 5, discussing John W. Campbell, Jr.; and other additions and emendations.

Table of Contents      Introduction by Anthony Boucher  
Authors Notes  
Myself When Young      Critics      The Classics      Chuckleheads      Campbell and His Decade      Cosmic Jerrybuilder: A. E. van Vogt      Half-Bad Writers      One Sane

Man: Robert A. Heinlein Asimov and  
Empire More Chuckleheads When I  
Was in Kneepants: Ray Bradbury The  
Vorpall Pen: Theodore Sturgeon The  
Excluded Data: Charles Fort  
Microcosmic Moskowitz Anthologies  
Half Loaves Genius to Order: Kuttner  
and Moore Kornbluth and the Silver  
Lexicon The Jagged Blade: James Blish

Amphibians New Stars Curiosa  
br-r-r! Decadents Britons Pitfalls  
and Dead Ends Symbolism Milford  
and Clarion Science and the World  
What Is Science Fiction, Anyway?  
Writing Science Fiction What next  
Bibliography Index Knight has long  
been a pithy and insightful commentator on  
science fiction, and the new material written  
mostly a decade or more ago--alters that  
description in neither jot nor tittle ... his  
book is the perfect companion to your  
collection of favorites. Analog
