

Proserpina: Studies of Wayside Flowers, While the Air Was Yet Pure Among the Alps, and in the Scotland and England Which My Father Knew (Classic Reprint)

Excerpt from Proserpina: Studies of Wayside Flowers, While the Air Was Yet Pure Among the Alps, and in the Scotland and England Which My Father Knew Yesterday evening I was looking over the first book in which I studied Botany, - Curtiss Magazine, published in 1795 at No. 3, St. Georges Crescent, Blackfriars Road, and sold by the principal booksellers in Great Britain and Ireland. Its plates are excellent, so that I am always glad to find in it the picture of a flower I know. And I came yesterday upon what I suppose to be a variety of a favourite flower of mine, called, in Curtis, the St. Brunos Lily. I am obliged to say what I suppose to be a variety, because my pet lily is branched, while this is drawn as unbranched, and especially stated to be so.
