

Commentaries on Christian Life

John Calvin (10 July 1509 – 27 May 1564) was one of the most influential Christians of the last millennium. An influential French theologian and pastor during the Protestant Reformation, Calvin was a principal figure in the development of the system of Christian theology later named after him. Calvin broke from the Roman Catholic Church around 1530, and after religious tensions provoked a violent uprising against Protestants in France, Calvin fled to Switzerland, where he published the first edition of his most famous work, *Institutes of the Christian Religion* in 1536. In addition to the *Institutes*, he wrote commentaries on most books of the Bible, as well as theological treatises and confessional documents. Calvin was influenced by the Augustinian tradition, which led him to expound the doctrine of predestination and the absolute sovereignty of God in salvation of the human soul from death and eternal damnation. These writings eventually led to Calvinism, which continues to remain a branch of Christianity today.
