

Series Craft 101

Based on the experiences of creating The Hannaria Series and teaching others through consultations and workshops, sci-fi novelist Patricia Gilliam offers a practical collection of tools, tips, and advice for constructing a multiple-novel story and creating a workflow system. Topics include character and setting development, plotting, series structure, and beginning author platform and educational resources. (Note: This book is intended to be a supplement to an overview writing guide. The author recommends Sol Steins Stein on Writing.)
