

## Writing Real Fiction: The Enhancements

As a professor of creative writing for several decades, I taught thousands of students to write suspenseful, plotted fiction, some of whom are now best-selling authors (B.V. Larson and Vaughn Heppner, for example). Year by year, I had a testing ground to refine the ideas that got the best stories (or novels) out of the most people. This book is the result. It is simple, easy to understand, practical, specific, and geared toward getting the job done. Writing Real Fiction is built on the premise that Knowledge leads to inspiration. Whatever genre of fiction you write, this will help you write it easier and better because it shows you how fiction is put together--with many examples--and knowing this, you won't need to lean as much on inspiration. Not only does Writing Real Fiction take you from the initial idea for a story (or a novel) to its conclusion, this book then takes a closer look at beginnings, developments, and the writing of action, dialogue and description. No longer will you be stuck in the middle of one of your stories, clueless and idea-free. You will know what to do. As a writer myself, I have over sixty publications in the US, The Peoples Republic of China, and both Western and Eastern Europe. So, not only can I write fiction that sells, I can teach others how to do it--including you. To further evaluate my credentials, I would suggest reading the free on-line samples of my novels and short stories. (20,000 words) About Wayne Wightman's Fiction: John Brunner, the legend himself: Wayne Wightman is agreeable company, both in person and via the printed page. As to the former, I'm afraid you will have to wait the chance to make his acquaintance. As to the latter, however, now's your chance. Orson Scott Card, Hugo and Nebula winner: [Wayne Wightman is] one of the names I've learned to look for. He is a romantic whose stories confess his belief that individuals can be larger than life, that

their decisions can change the world around them. Best Story of the Year 2011 awarded to Wayne Wightmans Brutal Interlude by Orson Scott Cards online magazine The Intergalactic Medicine Show. Richard Paul Russo, Philip K. Dick Award winner: One of Wightmans great strengths is his willingness to go to the edge. He pulls no punches, whether the story is serious or violent or manic. You can count on him to take you places other writers shy away from.
