New Practical Chinese Reader vol.2 Workbook (Traditional Chinese Edition) This is Workbook 2 of New Practical Chinese Reader (Traditional Character Version). NPCR is a new series of textbooks designed for native English speakers to learn Chinese. It has been compiled under the guidance of the new NOTCFL Syllabus and in consultation with the HSK Guideline. The objective of this series is to develop the students ability to communicate using Chinese through the study of language structure, language function, and related cultural knowledge along with the training of listening, speaking, reading and writing skills. In order to make the study of Chinese easier and more interesting, this textbook has the following features: ?The student will be in the cultural setting of Chinese society with several international students, Ding Libo (son of Gubo and Ding Yun), Lin Na and Ma Dawei. Through many interesting experiences, the student will not only learn authentic Chinese but also understand Chinese society and culture. ?The instruction of functional items is emphasized. The student will learn to use Chinese from the very beginning of the learning process.
