

## Palmetto-Leaves

Sketches of Florida from the author of Uncle Toms Cabin. Nothing from the pen of Mrs. Stowe has been more beautiful than these sketches of life and nature in Florida. The pictures she draws are so charming that one fancies the peninsula must be a paradise, and that each day is a grand holiday. Anyone who wishes a delightful excursion to the land of flowers has only to turn over these Palmetto Leaves, and he has it. -New York Observer Mrs. Stowe describes the Florida life with the pen of a poet, a florist, an artist, and we may almost say an agriculturist. It is pervaded by the good sense and clearness of the writer. -Hartford Courant Harriet Beecher Stowe's place in literature was fixed and her duty to humanity performed in the generation which has passed. But the memory of her work survives, and will live on as long as the mind recalls that slavery was once an institution that thrived in this free land. Mrs. Stowe has given to the world many brilliant thoughts in the large amount of literature which her pen produced, and this work is still read and remembered; but for all this, her fame must rest chiefly upon Uncle Toms Cabin, the novel which accurately described the conditions of slavery in the South, fanning with a flame the abolition enthusiasm of the North, and perhaps doing more to bring about the fall of the detested institution than the individual effort of any other person on the continent. -Book News
