

## Panzerkampfwagen IV and Its Variants 1935-1945, Book 2 (Spielberger German Armor and Military Vehicle)

This book is the final documentation on the Panzerkampfwagen IV series, the most often-built German tank of World War II and presents the exact chronology of the vehicles development from 1935-45, plus many hitherto unknown and pioneering test vehicles. The authors discuss the origin of the Large Tractor, the so-called Neubau (New-Built) Vehicle and the attempts in 1944 to install the 7.5 cm Kampfwagenkanone 42 L/70 of the Panther onto the Panzer IV. The authors have dedicated an entire chapter to armament, and action in all war theaters.
