

## A Nation at War in an Era of Strategic Change

The President, Secretary of Defense, and the Army's Chief of Staff have all stated that the United States is a Nation at War. The U.S. military faces significant strategic challenges as it continues to transform the force and improve interagency integration into joint operations, all the while engaging in active combat operations associated with the Global War on Terrorism. This collection of outstanding essays--three of which won prestigious writing awards--by the students enrolled in the Army War Colleges Advanced Strategic Art Program (ASAP) highlight some of these strategic challenges and offer thoughtful solutions. They provide insights that will undoubtedly prove useful to decisionmakers at the highest levels of our national security establishment. ASAP graduates continue to make their mark as outstanding theater strategists in the Office of the Secretary of Defense, the Joint Staff and Army Staff, and in the Combatant Commands.
