

Looseleaf Communication Matters and Connect Access Card

Communication Matters: Because great communicators are made, not born. Through Communication Matters highly interactive program, students learn that our instincts aren't as good as we think they are and develop the skills needed to become effective communicators. The program prompts students to question their assumptions, helps them to move beyond their personal daily communication experiences, and challenges them to think critically about why and how they communicate in the ways they do. Connect for Communication Matters, Second Edition, reflects our increasingly diverse, interactive, and digital world by using hands-on features. Through an interactive eBook, a suite of student videos for public speaking, and dynamic online activities, students are urged to consider which choices are likely to be effective and which less so. LearnSmart, McGraw-Hill's adaptive learning system, assesses students' knowledge of course content and maps out personalized study plans for success. The result: Students are able to internalize core communication principles, adapt their communication behavior more effectively, and actively apply those strategies to all aspects of their lives. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.
