

## Select Essays of Elia (Classic Reprint)

Excerpt from Select Essays of Elia This series of books aims, first, to give the English texts required for entrance to college in a form which shall make them clear, interesting, and helpful to those who are beginning the study of literature; and, second, to supply the knowledge which the student needs to pass the entrance examination. For these two reasons it is called The Gateway Series. The poems, plays, essays, and stories in these small volumes are treated, first of all, as works of literature, which were written to be read and enjoyed, not to be parsed and scanned and pulled to pieces. A short life of the author is given, and a portrait, in order to help the student to know the real person who wrote the book. The introduction tells what it is about, and how it was written, and where the author got the idea, and what it means. The notes at the foot of the page are simply to give the sense of the hard words so that the student can read straight on without turning to a dictionary. The other notes, at the end of the book, explain difficulties and allusions and fine points. The editors are chosen because of their thorough training and special fitness to deal with the books committed to them, and because they agree with this idea of what a Gateway Series ought to be. They express, in each case, their own views of the books which they edit. Simplicity, thoroughness, shortness, and clearness, - these, we hope, will be the marks of the series.
