

Surviving Inside Congress

Surviving Inside Congress provides essential and non-partisan educational information to new Congressional staff and fills in some gaps for those who are not so new to the Hill. Many books are written with advice for new Members of Congress, and no doubt they would benefit from this book. However, *Surviving Inside Congress* is the first publication of its kind to give staff detailed insight into what is expected and required of those who are the glue that holds the institution of Congress together. Most new members of Congressional staffs are ill equipped to meet the diverse and critical needs of elected officials and their constituents. There are no comprehensive training programs, and no curriculum that adequately addresses the multiple roles they will play and functions they will perform. This is due in large measure to the uniqueness of these roles and the environment in which their work will be done. As a result, the academic credentials and professional experience they bring with them will have little relevance to the tasks they are about to undertake. *Surviving Inside Congress* tries to address these challenges. National Journal wrote: The book gives plenty of tidbits on how congressional offices are staffed, parliamentary procedure, ethics guidelines, and the e-mail and snail mail systems. Elizabeth Kenigsberg of Roll Call wrote: The book does a thorough job of explaining the history, rules and procedures of the legislative branch, and even provides an easy-to-use glossary and procedures manual... The book is perhaps most valuable for its understanding of the new challenges that legislative staff must face and its in-depth look into the ever-changing and increasingly rapid realm of Congressional communication... Special attention to political strategy and the undeniable challenges of working on Capitol Hill also play a critical role in the book, and the authors' advice is easy to read.

and comprehend. Founded in 1987, the Congressional Institute, Inc. is a not-for-profit 501(c)(4) corporation dedicated to helping Congress better serve its constituents and helping their constituents better understand the operations of the national legislature.
