

The Clue: A Resurrected Press Enhanced Edition [Annotated]

On the eve of her wedding, a beautiful heiress is found stabbed to death in the library of her mansion. A suicide note is found next to her body, but the evidence points to murder. The house had been securely locked with no sign of a break in. Suspicion falls by turns to the groom who loved another, the cousin who stands to inherit her fortune, the woman the groom loves, the murdered woman's secretary, and the former lover of the murdered woman's uncle who will inherit the mansion. The authorities can come to no solution of the mystery. They call on the services of the famed detective Fleming Stone to resolve the case. In the end, his solution rests on a single tiny clue.
