

The Cats that Surfed the Web (The Cats that . . . Cozy Mystery Book 1)

If you love mysteries with cats, get ready for a thrilling, action-packed read that will keep you guessing until the very end. When Katherine Katz Kendall, a career woman with cats, discovers she's the sole heir of a huge inheritance, she can't believe her good luck. She's okay with the conditions in the will: Move from New York City to the small town of Erie, Indiana, live in her great aunt's pink Victorian mansion, and take care of an Abyssinian cat. With her three Siamese cats and best friend Colleen riding shotgun, Katz leaves Manhattan to find a former housekeeper dead in the basement. There are people in the town who are furious that they didn't get the money. But who would be greedy enough to get rid of the rightful heir to take the money and run? Four adventurous felines help Katz solve the crimes by mysteriously searching the Internet for clues. With over 450 Amazon positive reviews, this debut book will keep you on the edge of your seat.
