

The Tales of True Mythology: Discovery

Have you ever had moments when you saw something from the corner of your eye, but there was nothing to be found? You may want to look again. Logan has always wanted more adventure in his life. All it takes is an old book in his great-grandmother's house to set him on that journey. The further he delves into the strange myths chronicled in the book, the more those myths come alive before his eyes. Secrets hidden in the town theatre, centaurs in the woods, and a powerful threat at his back send him racing through the forest, running from danger, and searching for truth. For what are myths but things that have yet to be discovered? Now the myths have been found again. These are their tales.
