

MasteringChemistry with Pearson eText -- Standalone Access Card -- for Basic Chemistry (4th Edition)

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. This includes all of the resources of MasteringChemistry in addition to Pearson eText content. MasteringChemistry promotes interactivity and active learning in Basic Chemistry. Research shows that Mastering's immediate feedback and tutorial assistance help students understand and master concepts and skills in chemistry allowing them to retain more knowledge and perform better in this course and beyond. New to MasteringChemistry: NEW! Key Math Skills and Core Chemistry Skills Tutorials provide assignable practice problems related to the in-text feature boxes, ensuring that students master the basic quantitative and science skills they need to succeed in the course. NEW! The Math Remediation Quiz provides a comprehensive set of questions to assess students' basic math skills. Each question includes links to algorithmically-generated practice problems in MathXL. Math Remediation links in selected tutorials also lead students to additional problems in MathXL. NEW! Concept Map Quizzes use interactive concept maps and related multiple-choice quiz questions to help students make connections between important concepts within each chapter. NEW! Career Focus Activities allow students to explore different types of chemistry-related careers. NEW! Multiple-choice Reading Questions are provided for each chapter, making it easy to hold students accountable for completing assigned readings before

lecture. NEW! All tutorials, end-of-chapter questions, reading quizzes, and test bank questions have been tagged to learning outcomes. The majority of all end-of-chapter problems are now easily assignable within MasteringChemistry. The overall number of algorithmic and randomized problems has also been increased for the new edition

Chemistry: A Molecular Approach, Books a la Carte Edition (4th Card ISBN13: 9780321695901 See the new edition!
