

Moon Trail

Betsy Gordon is living a great adventure. She just doesn't believe it. It's 1965 and ten-year-old Betsy is reluctant about her family's move to Florida. Her favorite stories are about pioneers. And pioneers certainly don't live under palm trees, sport pixie haircuts, wear orthopedic shoes, or have fathers who work at the Kennedy Space Center. Or do they? Betsy soon finds new friends and discovers a special talent, right before her embarrassing mistake. Set against the backdrop of the Space Race, Moon Trail is the growing-up story of a young girl who is an eyewitness to a remarkable period of American history.
