

# The Declaration of Independence of the United States of America

The Declaration of Independence is the statement adopted by the Second Continental Congress meeting at Philadelphia, Pennsylvania on July 4, 1776, which announced that the thirteen American colonies, then at war with the Kingdom of Great Britain, regarded themselves as thirteen newly independent sovereign states, and no longer under British rule. Instead they formed a new nation the United States of America. John Adams was a leader in pushing for independence, which was unanimously approved on July 2. A committee of five had already drafted the formal declaration, to be ready when Congress voted on independence. The term Declaration of Independence is not used in the document itself.
