

Vampires 2 (The Social Workshop) (Party Games)

Description Vampires: The Night Cycle 2
The Social Workshop There are many races that walk under the banner of the paranormal, yet none more frightening than the undead vampires. Together, they could own the world, both day and night, but they remain fractured, isolated, too stuck in the old ways. The old world has collided with the new world and now two distinct factions of vampires fight for control of all they survey. Will it be the old world vampires that make the new world submit in defeat? Or will the new world prove that newer evolutions on an old model will always come out on top? In Vampires: Day Bringer, the humans have been pushed around long enough. The vampire hunters have called upon their most ancient ally, a race of people sworn to protect those that cannot protect themselves. They are the sisterhood of the coven and their goal is the eradication of all kindred, whether they be from the old world or the new. This expansion contains an updated manual for hosting games larger than before. It also has 2 brand-new archetypes.
