

The Writings of Thomas Jefferson: Volume 7: Being his Autobiography, Correspondence, Reports, Messages, Addresses, and Other Writings, Official and ... Library Collection - North American History)

Thomas Jefferson (1743-1826) was the third United States President (1801-9) and the principal author of the Declaration of Independence. An advocate of republicanism, he envisioned America as an Empire of Liberty that would strive to promote freedom around the world. First published in 1853-4, this nine-volume edition of Jefferson's writings shows the breadth of his intellectual and political interests. His autobiography, letters, diaries and political memoranda reflect a life lived at the centre of pivotal events, including the French and American Revolutions, and the founding of a new nation. Through them we discover his contribution to the pursuit of world peace, the evolving relationships between the United States and the European powers, and the development of the American constitution and judicial system. Volume 7 contains letters written following the end of his term in office, covering topics from university administration to America's relations with Europe.
